

Diploma in Midwifery

During the pandemic period, students of the 5th batch of the Diploma in Midwifery Programme were sent to Cox's Bazar (PHD's delivery centres) Rohingya project in alternate groups. They went there in 3 groups; 2 of the groups were performing their CEGM and the other was fulfilling their graduation target. Moreover, they worked there for 24/7, under the supervision of DMP's senior midwives. According to the students, they did not face any challenges while working, except for the language barrier.

On 16 March 2020, 628 students from 7 academic sites of DMP received training on COVID-19 before leaving for home. They in turn, spread awareness of what they had learnt at home through the posters and leaflets provided by BRAC JPGSPH, BRAC University to distribute in their communities.
