

Vacancy Announcement

Junior Statistician-1 position

The BRAC James P Grant School of Public Health (JPGSPH) at BRAC University was established in 2004 as an educational and research institution focusing on the integral areas of teaching, research, and services. The goal of the school is not only to impart knowledge but also to act as a center of excellence in knowledge creation through research and training that connects with practice. The Center for Noncommunicable Diseases and Nutrition (CNCDN) is one of the five research centers of excellence established in 2017. The mission of CNCDN is to prevent and control noncommunicable diseases (NCDs) and malnutrition in Bangladesh and the Global South. The founding partners of CNCDN are non-communicable disease control, Imperial College London, BRAC, Bangladesh Institute of Research and Rehabilitation for Diabetes, Endocrine, and Metabolic Disorders (BIRDEM), National Institute of Cardiovascular Diseases (NICVD), Bangladesh University of Health Sciences (BUHS), and BRAC James P Grant School of Public Health, BRAC University. The research of CNCDN is focused on NCD and nutrition surveillance, identifying evidence-based practices in clinical and population settings, optimizing intervention delivery through health system research, and conducting economic evaluations of novel and evidence-based interventions. Moreover, CNCDN creates communication materials based on their research to further advocate for the prevention, treatment, and control of NCDs and malnutrition, as well as to encourage people to adopt healthier lifestyles.

CNCDN is looking for a **Junior Statistician** to support in training, data collection, data management, data cleaning, and data analysis of its multifaceted research activities. Details of the position are stated below:
